

all you need is a little imagination

Silence is golden

Discretion is paramount when using public toilets. Excess noise is frowned upon. Even something as prosaic as the sound of a hand dryer can attract unwanted attention and even more so in executive washrooms. The alternative of paper towel is messy, expensive and often inconvenient when dispensers run dry.

Applause Satin Stainless Steel APP02/SSS

The best solution would be a purpose built hand drying unit that is much quieter but as effective as the heavier commercial units. The Australian designed and manufactured Applause range of hand dryers fits the bill and does so elegantly. JD MacDonald has managed to incorporate the power of heavier commercial hand drying units into a low profile, whisper quiet unit.

The discreet styling and small footprint of the Applause is a unique combination rarely found in hand dryers and makes

it ideal for smaller executive washrooms.

The styling of the Applause unit, like all good industrial design, is

Applause Polished Stainless Steel APP02/PSS

borne of function. Washrooms and especially small ones need constant cleaning. A less streamlined form can collect dust and grime that accumulates

over time and can make even the best designed washrooms look tired. The form of the Applause hand dryer allows for ease of cleaning and is devoid of areas that trap dust and grime.

STAINLESS STEEL

The Australian designed and manufactured Applause range now features satin or polished finished high-grade stainless steel. The satin and polished finished stainless steel (hard to show in photography) are equally as hard wearing but add more flexibility to the designers palette, allowing more latitude for individual expression.

The choice of high quality stainless

steel finishes in part of the range also reduces the chance of scratching associated with regular use of abrasive commercial cleaners.

Applause Classic White APP02

CLASSIC WHITE

The range is available in a classic white powdercoated finish in automatic operation. Simple installation also makes the unit perfect for retro-fitting of

existing washrooms. This simple and practical design has another benefit; good industrial design is timeless. Timeless design is a desirable quality when it comes to commercial fit-out.

And last but not least, in the

unlikely event of a breakdown

Applause hand drying units are

easily maintained with ready

access to replacement parts.

The Applause range of units is also

incredible value for money, with all

the reliability of Australia's most

recognised brand of hand dryers.

APPLAUSE

Features:

- Automatic hand dryer with sensor operation
- Designed for smaller environments requiring low noise levels and streamlined, minimal design
- Durable casing with theft resistant torx screws
- Tamperproof and safe intake opening
- Pivot bracket inside cover for ease of installation
- Made in Australia

Installation Options:

- Electrical connection by cord and plug (as supplied). Can be direct wired by an electrician

Applause Specification:

- Electrical AC, 230–240V 50Hz, 7A
- Motor 65 Watt, 2500 RPM
- Element 1600 Watt protected by thermal cut-out
- Air velocity 16.2m/s
- Noise level 69dB (A)
- Certificate of Suitability No. Q070748
- Electrical Safety Requirement AS/NZS 60335.2.23:2004
- Protection Category IPX1

CLASSIC WHITE

- Applause Automatic: APPO2

Classic White Features:

- Automatic operation
- Durable aluminium casing

Classic White Specification:

- Gross weight 4.5kg
- Shipping 4.8kg

Classic White Finish:

- White powder coated finish
- Charcoal polycarbonate intake/outlet grill

Classic White Options:

- Designer colours for quantity purchases
