

SPECIFICATION

Coat Hook and Bumper shall be fabricated of chrome plated brass with a black neoprene bumper to protect wall and or partition surfaces. Two (2) mounting holes capable of accommodating No. 10 screws shall be provided for anchoring unit to wall.

INSTALLATION

Bumper is surface mounted to wall or partition using No. 10 self tapping screws (supplied by others). For mounting height standards refer to current Building Code of Australia for able bodied and/or disabled use.

WARRANTY

One year.

Coat Hook & Bumper shall be Model No. 10-0714 as supplied by ASI JD MacDonald.

 All ASI JD MacDonald disabled compliant products when installed must be in accordance with AS1428 to ensure the specified product is complying with all washroom specification requirements.
