

SPECIFICATION

Surface Mounted Heavy-Duty Robe Hook shall be fabricated of brass with a chrome finish. Three (3) 1/4-28 cone point stainless steel hex socket set screws shall be provided evenly spaced around perimeter of flange for securing to wall bracket. Hook shall be capable of supporting over 136.1 kg when properly attached to building element.

INSTALLATION

Wall bracket is surface mounted using No. 10 pan head self-tapping screws (provided by others to suit wall conditions) in a manner capable of supporting 136.1 kg of downward force. Secure hook to bracket by tightening three (3) hex socket set screws on perimeter of flange with a 1/8" hex wrench. For mounting height standards refer to current Building Code of Australia for able bodied and/or disabled use. Such devices shall not be less than 500mm out from any internal corner except where associated with shower recesses when they shall be placed on the return wall within reach of a person seated on the folding seat.

WARRANTY

One year.

Single Heavy Duty Robe Hook shall be Model No. 10-0751 as supplied by ASI JD MacDonald.

 All ASI JD MacDonald disabled compliant products when installed must be in accordance with AS1428 to ensure the specified product is complying with all washroom specification requirements.
