

SPECIFICATION

Stainless Steel Free Standing Waste Receptacle shall hold 54 L of waste material. Unit shall be 22 gauge type 304 stainless steel alloy 18-8 with satin finish and be protected during shipment with PVC film easily removable after installation. Receptacle shall have no exposed fastening devices or spot welded seams. Top shall be removable for easy maintenance. Bottom of receptacle shall be equipped with four (4) non-removable rubber supports.

INSTALLATION

Waste bin is free standing and should be placed in appropriate position on finished floor.

WARRANTY

One year.

OPERATION

Waste material is deposited into the receptacle through top opening. Use of a disposable trash liner bag recommended. The disposal bag is emptied of waste material on a cycle determined by maintenance needs by removing top assembly.

Free Standing Waste Bin, with open top shall be Model No. 10-0834 as supplied by ASI JD MacDonald.
