Toilet Partitions

ASI JD MacDonald can help you complete your vision with a comprehensive range of high-performance toilet partitions that meet or exceed specifications and require little maintenance.

Quality and function are paramount to withstand the rigors of some very difficult environments. ASI JD MacDonald toilet partitions are guaranteed to meet these requirements and provide the detail that is necessary in any good washroom design.

Designers can choose from either structural or compact laminate to offer you even greater choice in durability and elegance. A wide range of colours and patterns provides ultimate design flexibility.

Compact laminate provides superior strength, durability, and serviceability. Holding up even under severe moisture conditions from showers, pools and saunas, or when maintenance includes hosing down toilet partitions. Ideal for where vandalism is a problem.

Stock is available throughout Australia and ASI JD MacDonald can even deliver special requirements to meet the most comprehensive specification.

In addition, our complementary range of washroom accessories are seen everywhere around Australia, from shopping centres and corporate offices, through to nightclubs, restaurants and schools. The options are limitless – all you need is a little imagination.
